

Well Child Care

Regular well child visits are an important element in maintaining your child's health.

At a well child visit, you can expect:

- Evaluation of growth and development
- Discussion of safety, nutrition, fitness, behavior, school, etc.
- A chance to ask questions
- A physical examination
- Age-appropriate screening tests (including hearing, vision, hemoglobin, lead testing, and urinalysis)
- Age-appropriate immunizations

Schedule of visits

- Hospital Newborn Exam
- 2-4 days after discharge
- 1-3 weeks of age if necessary
- 1 month
- 2 months
- 4 months
- 6 months
- 9 months
- 12 months
- 15 months
- 18 months
- 2 years
- Yearly visits ages 3-21 years

We encourage advance scheduling of well childcare visits.

For infants and toddlers please schedule your next check up at the end of your visit.

Otherwise, we suggest you call 6-8 weeks ahead of the time you wish to be seen.
